## WITHDRAWAL AND REFUSAL OF BIOBANK CONSENT

With my signature, I confirm that my samples and personal details may not be handled, handed over or collected in Helsinki Biobank, or utilized in biobank research. After I have withdrawn my consent and forbidden the use of my samples and data, they may no longer be utilized in new research. Helsinki Biobank will dispose of samples and associated information as soon as possible after receiving and processing this form, and will provide confirmation when this has been done.

In general, research results already obtained from my samples and data before this declaration, and data and research materials included in the research results cannot be destroyed, since their storage may be necessary for limited purposes such as verifying the validity of studies already carried out. To this end limited necessary information could still be stored.
