Restriction of data and sample use in the Biobank (EU 2016/679 article 18).

By signing this form I state my wish to restrict the use of my information and samples in the Biobank (EU 2016/679 article 18).

Restriction of data and sample use requires you to indicate a reason for the restriction, which you may choose by ticking the appropriate box below (you may choose multiple reasons). After this, please describe how you wish to restrict the use of the information and samples. Please be aware that depending on the nature and extend of your restriction it is possible that your information and samples can no longer be utilized in biobank research.

Your information and samples will not be used during the processing of this matter and the use will only resume once this matter has been fully settled. Helsinki Biobank will contact you once the restriction has been processed.

☐ My information stored in the Helsinki Biobank registry is not correct and needs to be changed. (There is a separate form for rectifying information which may also be used)

*Please describe below how the information is incorrect and present us with the correct information:*

☐ I believe my information on me has been used unlawfully.

*Please provide an explanation below:*

Based on reasoning stated above, I wish to restrict the use of my information and samples in a following way:
Restriction of data and sample use in the Biobank (EU 2016/679 article 18).
